Yesterday, gold prices come down to a peak in the last trading day of the week. Dropped to below \$ 1,330 gold, U.S. data and demand from China has seen the summit of the last two months. An ounce of gold is trading at close to \$ 1,368 when entering week break.

Under the final record week ... Yesterday, gold prices go head-turning a descending again, the last trading day of the week literally flew by. Gold prices rose by a record, having traded today, two months climbed to the summit.

Close to \$ 1,368

Yesterday afternoon, in the evening, then recovered gold prices fell below \$ 1,330 today, the pursuit of a record. An ounce of gold is trading close to the level of \$ 1,368. Behind the rise in demand from the U.S. and China, have the effect of data.

Record decline in shares of

The reason for the rise in this record under the successive economic data from the U.S. yesterday. U.S. shares, bonds, interest rates rise after economic data from the best incentives will reduce the Fed's concerns, while the data in a disappointing decline was the most severe since June. This decline was reflected in the rise in the bottom.

Shook the U.S. market data

According to the data released yesterday, the U.S. unemployment claims fell last week, about a six-week low, as the labor market has recovered signal. The rise in consumer prices in July with the third month, the Fed's inflation target forecast to approach supported. U.S. industrial production remained unchanged in July.

"China and India DESPITE THE FALLS"

A recent U.S. economic data in the United States in accordance with the Central Bank's bond program to come out with reference to the acquisition of Harvey, the following assessment: "In my opinion, we are in a trade built on fear. U.S.

economy is growing and there are some signs of a beginning of recovery of the EU economy. Secondly, the emerging economies like China and India rise in gold prices can be seen in the increasing demand for gold. Nevertheless, I still think that this trend will be for a short time. " Harvey is also in demand for gold forming part of the state of some of the emerging economies is not very bright, said: "India has already had to deal with a very serious and comprehensive problems. fact, at the beginning of the Central Bank has recently (in 2008 a few economists can predict the global economic crisis is one) Raghu Rajan ' brought to the. China is growing much more slowly than currently estimated. China hard landing or a soft landing is currently being discussed will, "he said. _ **"MAY downward movement"** Gold and Money Markets Expert Alper Kalyoncu Garanti Bank, the " I can say that the physical demand for gold prices upward. Far East, China, India and Turkey, under the physical demand. This is supported prices. many institutional investors have already sold their long positions because they already did not make extra sales. amount of physical demand, prices could be passed on up and coming, but I do not think the range of 1370-1420 dollars. physical demand will be reduced in this range, "predicted. Kalyoncu, "looks like we may in the future between 1300-1400 dollars. general direction is still down. U.S. 10-year bond yields up continue to arrive. expansionary monetary policy the Fed is signaling'm going. This show could be a movement downward in the coming period, "he said. **rise in gold prices has lowered the dilemma jewelers** gold prices soared in recent days, then go through the different opinions among jewelers began to emerge. Memnunluklarını the rise of gold, while expressing some jewelers, while others argue that citizens uncomfortable in this situation. jewelers, Selcuk İnceoğlu, the decline in gold prices in periods where people "fall a little more" expect, he said. İnceoğlu, "It's slowing down our work periods. This time when the rise of the 'earn money' at the thought of starting to take the gold. In this case, 50 cents, 1 lira, albeit affairs brings motion. This makes us happy. The ups and downs of prices is watching developments outside the country. Developments in our country, especially in the United States variability effects. Currently our work is very good, thank goodness. Called the economy is bad, but it is bad for those who do not follow the job. Edeninki track is a nice job. "He said. İrfan Yazicioglu arguing that the gold prices will continue to rise, "Right now the lowest time of gold. We would recommend investing in the bottom of the citizens. In addition, we expect gold prices will rise. Gurbetçilerimiz, especially for the holidays and the wedding season has brought mobility to their homeland to come to the market. "He said. Gold prices have begun to see the most beautiful figures. Gold investors are too afraid to gold prices. As a result of investments made are very curious about what's gonna happen. Gold price per gram of them had low as £ 107 a short period of 5-6 months after reaching the bottom of the figure as £ 75 Can the fear of investors who began to wonder at the old price. grams price of gold began to rise slowly, but the former is a pretty long does it take to get the price looks like. We will quickly slow the descent, but the output looks like. Of course, there are those who are rich in the gold prices. From the lowest level of the price of gold at around £ 73. Now grams of £ 10 as there is a profit. gold prices have jewelers are not satisfied with price variability. Mehmet Özkanca, prices, imbalance 'in the country instable' connecting said: "The events in our countries, especially the neighboring country is reflected in the negative. Ereğli ups and downs in the gold market is bothering customers. This condition continues throughout the country. Strike to avoid the passage of the Central Bank played an active role in the rise of gold. This has made our people getting expensive goods. It disturbs our people, as well as tradesmen. The questions the volatility of prices for our customers. We are trying to convey information about our customers. Currently citizens from abroad do not believe that what happened in the markets. The main reason for instability in the country exit the landing. "

Gold stocks decline and demand increases the effect of physical purchases in the last five weeks with a two-month peak appeared headed for the best weekly performance. Since October 2011, the rise of the best weeks of preparing silver.

Spot gold rose 0.5 percent to \$ 1,372.97 per ounce, its highest level since June 19 after, with the 09:57 Singapore time in, came to \$ 1,367.67. Silver was little changed at \$ 23.01 per ounce. Silver yesterday, 27 June saw the lowest level of the past 34 months increased by 20 per cent, the situation was referred to as the bull market.

Gold this week, declining stocks, increased physical demand environment, the metal rose to 4.1 per cent for the time raising interest in alternative investments and the best week since the week ending July 12 directed for the performance show. MSCI All Countries World Index of stocks index, the Fed's asset

purchases will reduce the concern with the improvement in the U.S. economy, with the fall of last week and then directed for this week to take the loss. China, Hangzhou Yongan Futures Co.. analyst Yang Xi, "1,350 dollars upward break is still the continuation of the Fed's asset purchases will reduce the expectation, but brought a rally from the purchase of closing a short position," he said, and "physical demand for gold, depending on the rising and falling prices. between the two, silver, industrial demand will increase along with the economic recovery is well positioned due to the more "the assessment found. The world's largest gold-backed exchange traded fund (ETF) SPDR Gold Trust'taki 912.92 tons of gold assets fell yesterday, but the increase in assets on a weekly basis to show directed for the first time this year. In China, the China Gold Association said this week, according to the consumption of gold has risen 54 percent in the first half of the year.
