Starting next week, a record rise, gold prices over the last two months of ups and downs summit with flying colors. Yesterday saw an ounce of gold for $1,380 to U.S. $1,360 in transactions per day, then a new ...

Day of the last period of the day as it is repellent and removes anxious investors in gold, still moving. Record rise next week, starting today, gold prices over the last two months, the summit was the reverse in the morning. However, this situation did not last long, and in the afternoon it began to rise. Gold traders in the evening release of the U.S. Federal Reserve (Fed) has focused on the minutes of the meeting in July, level of $1,372 to $1,380 last week, rising gold prices dopping afternoon entering and began to float. In recent days the level of $1,360 an ounce of gold was falling down, up to $1,372. Federal Reserve on stage under the reason for the recent volatility of the U.S. Federal Reserve (Fed) has created concerns. Concerns reflected in the new speculation the Federal Reserve may reduce incentives for markets increased, the price of gold began to decline, 'falls again' SAI. However, there are also opinions which will be a short-term rise. Professor of International Economics at Duke University, said Campbell Harvey, "Gold prices are likely to trend downward over the next period," he said.
