Dear Richard Hessink,

For brief introduction firstly, we are the below signed owners and representatives of the El Ali 15 tons & 150 kgs iron meteorite originally exported from Somalia legally to China and the owners of Kureym Mining & Rocks Company, herein would like to politely take this opportunity to write to you.

In reference to, and as per your visit to Nairobi – Kenya on 26th January 2026 where you unfortunately signed illegitimate acting as an agent for the seller agreement which has finally led and ended up with failure and cancellation of your travel to China on 24th February 2026.

Therefore, we have also been notified that there was an attempting by two person who secretly tried to facilitate the impossible shipping process of the stone fraudfully to outside of China. Notably that blindness mission has been unfolded and remained unsuccessful. This unfortunate arrangement was probably organized to coincide with your arrival in China on above stated date.

We do understand and acknowledge that you and the minster were NOT aware of who has and hasn't have the real legitimacy of signing such this agreement, and who are legitimate owners of the stone as well as their different percentage shares, so you were misled, and we are very sorry for any inconvenience caused by that.

Finally, and fortunately, all the stone shareholders members and representatives have had been fruitful meeting in Nairobi since last couple of weeks and discussed deeply over the stone sale and any other available buyers of our iron meteorite in across the globe.

It is also overwhelmingly agreed in the meeting that it is the time to politely ask you (Mr. Richard) any offer you may have for our beautiful El Ali iron meteorite. We would also highly be appreciated if you could let us know your current position regarding El Ali iron meteorite sale. Unhesitatingly, we must clearly declare that our first and foremost priority, and preference are not to ship our stone to any country outside of China but instead to sell it out within China where it has been stored.

Thank very much for your interest in our iron meteorite.

Best Wishes,

<u>Signatories of stone owners and the representative</u>:
