The leader of Al Shabaab in Hiiraan region, Abdiaziz Guled who was captured by Galje'el ma'awisley milita and detained in the city of Jowhar. Guled is the man who sold the rock extracted and taken away from at El Ali who had killed Galje'el young men.
Q: Tell us your full names?
A: It is Abdiaziz Hassan Farah. I was captured at a place called Jiririyow and I was a member of Al Shabaab movement.
Q: What was your role?
A: I was part of the militia.
Q: Where was your destination?
A: Basra was my destination.
Commander: In the name of God. Thanks to Allah. Everyone has a time. They have an destiny. They have an hour (to die). No one can take anyone's life before their time has come. Today, there is more power than they have. There are those who are more masculine than they are. Power belongs to Allah. There is no human that has power. We have to work hard and be part of the militia to live well in freedom and dignity. It is a weakness to think that someone else is more powerful than you are. These guys, as brother Abdiaziz says, he used to work with the Khawarij (Al Shabaab) and his destination was to travel to somewhere else. If someone is local, they are the dominant group there. We were born in this area. We sleep in the sand because of it. We stay awake day and night, morning and evening. We are not afraid of anyone and we will not be intimidated by anyone. And anyone who infiltrates this area will come to be killed or to kill. We are on standby to kill or be killed. There are people who are not from the region who colonize the area. Al Shabaab has foreign elements who say they are Muslims. Why would those foreign Muslims not fight to liberate their own countries? Is this their country? So, these young people have been brainwashed. I would like to tell anyone who would say they were brainwashed I reiterate what I said before that time is gone. No man can brainwash another man. Everyone has native land. You are the youth of this country. You should struggle to liberate this country. I was misled is not an answer. There is nothing like I was misled. Those who are with [Al Shabaab] give up on this. To those who are fighting as Ma'awisley and carrying weapons for the country, show patience for your country. Die for your country. Stop the enemy from your country. Peace.
Journalist: Commander, I would like you to give details about this man's movements and how he was captured.
Commander: I was following this man when he left Al Shabaab territory. We knew when he took a boat. I knew when he was put on a board on the other side of the river water near Jameec. I knew the motorcycle that took him from Jameec. I knew when he put his foot on the boat and I met him when he got off the boat.
Jouranilst: Another one escaped?
Commander: Yes, one escaped. He spent the night in the water. He will be eliminated this morning. About 30 [Al Shabaab] were reported to be harassing the local civilians this morning. It is not appropriate to threaten civilians. We are the people who are doing something and capturing them. Let them come to us. I call on the Khawarij [Al Shabaab] to refrain from harming civilians. We are the ones they need to face. And we will not allow anyone to oppress us in our own land.
Journalist: Abdiaziz, what do you expect from the Ma'awisley men who captured you? What are one or two things you would request from the commander?
Abdiaziz: I would perhaps request the commander to treat us fairly in the best way possible.
Journalist: Abdiaziz, if you are released now, are you likely to go back to Al Shabaab or you will mind your own and reunite with your family?
Abdiaziz: I would reunite with my family.
Journalist: So you would quit Al Shabaab?
Abdiaziz: Yes.
Journalist: Ok, chairman?
C**hairman:** In the name of Allah. Thanks to God. I would like to thank the liberation forces of western Middle Shabelle. This man was a member of Khawarij. They worked hard to track his data and his movements everywhere he was. They followed every move he made and every means of transportation he used. I thank them very much. Allah helped them detain him successfully. We thank them 100%. May Allah make them victorious.
