

Dear Sponsor,

Please find below details of the **10th International Conference on 3D Radiation Dosimetry*** (Full program and details available at www.IC3DDose.org). This meeting is Endorsed by the AAPM.

When: - September 16-19th, 2018

Where: - The scenic new [Conference Center](#) at Duke Kunshan University (close to Shanghai) with accommodation at the luxurious new [Crown Plaza Hotel](#), in Kunshan, close to DKU.

What: - State-of-the-art seminars from leading internationally renowned speakers
Educational refresher lectures and break-out sessions
Proffered sessions, both research papers and posters
Outstanding exhibit space for manufacturers and organizations

Focus: -

1. **To provide a forum** to discuss the latest research and developments in 3D and advanced radiation dosimetry.
2. **To elevate the quality assurance** of radiation therapy treatments through improved clinical dosimetry.
3. **To investigate** and understand the dosimetry challenges posed by modern radiation treatment techniques.
4. **To energize** and diversify dosimetry research and clinical practice by encouraging interaction and synergy between advanced, 3D, and semi-3D dosimetry techniques.

Sponsorship Opportunities:

The conference welcomes sponsor and exhibitor opportunities as listed below. Outstanding exhibit space is available near the main auditorium and the conference refreshment breaks and poster sessions.

	Exhibitor Space	Registration	Advertising	Cost
Platinum Sponsor/Exhibitor	6' table, drapes, 2 chairs, prime location	5 included	Prime on website, conference brochure, and printed program	\$10,000
Gold Sponsor/Exhibitor	6' table, drapes, 2 chairs	2 included	Website, conference brochure, and printed program	\$5,000
Silver Sponsor	N/A	2 included	Website, conference brochure, and printed program	\$3,000
Regular Sponsor	N/A	N/A	Website, conference brochure, and printed program	\$2,000

Other advertising and sponsorship opportunities are available on request.

Please note: sponsor registration is available by [clicking HERE](#)

Thank-you,

Mark Oldham PhD, Fang-Fang Yin PhD, James Bowsher PhD, and Ying Chiang (David) Huang PhD
